SHARP • DURABLE • SAFE

Hello,

Shikhar Impex is now proud to be the sole importer and marketer for **ORNA™** Schleifmittel, a German inspired professional quality range of abrasives.

ORNA™ Schleifmittel, is completely a quality oriented brand and we are extremely confident in the engineering behind the products to offer top - of - the - line quality control on every single unit produced.

In addition to this, we at Shikhar Impex assure you the best logistics, sale and after sale services round the clock to get the **ORNA™** quality at your door steps with zero deviation, but value addition.

This active association envisions **ORNA™** as a highly established name in the Indian abrasive industry to match the global brand equity through constant value addition in abrasion processes.

ORNA™ CUTTING ABRASIVES SERIES

ORNA™ reinforced cutting wheel is made from selected high quality abrasive & reinforced by fiber glass net, with tensile strength, anti-shock strength, resistance & bending.

High Efficiency
Extremely Sharp
Endurance
Good Durability
Double nets for safety

ORNA™ SUPERIOR QUALITY

CONVENTIONAL FLAP DISK

ORNAD™ FLAP DISK

- Straight flaps
- Can only be used on flat surface
- Lesser stock removal

Angled flaps ●
Can be used on both contoured & edge work
Angle provides greater surface contact & hence higher stock removal

OUR FLAP DESIGN

We use more and larger flaps vs. many competitor's flap discs which translates into great performance and life.

More flaps than competitive flap discs
Larger flaps than competitive flap discs
